Mrs. Hiscock responded that it was publicized and handled the way we normally publicized meetings. Mr. Terry Hochstedler asked if the Board had plans for the use of the money that they will get if the proposition is passed. Dr. Youngblood responded that at the moment they did not, but it will be part of the five-year plan, that is currently being worked on for the district. Mrs. Harris asked the Board when they decided to talk about the sale of the property in a public session, because she did not remember hearing it discussed before. B) Superintendent’s Report – Dr. Youngblood reported that the speed sign that was broken has been repaired. She also shared that she had a change of mind about purchasing a school van. She said that the district owns a school bus that will accompany numerous passengers. She said that she is in favor of assisting with the process of getting more teachers and staff members certified to drive the bus. There is a person from DMV that is willing to assist us with that process. Lastly, Dr. Youngblood shared a district newsletter that she along with Steve Koepper and others helped to get out in the mail to everyone in the district.
C) Principal’s Report – Mr. Tumminello shared that one of his beliefs is to express goods things such as the students accomplishments to the fullest. He said that in the front hallway there will be a wall of fame throughout the year as the student of the month both elementary and secondary will be displayed all over the wall. He also shared the great results of the Hands for Peace Project and the excitement that came with it.
D) Athletic Transfer Policy – Ms. Jules gave a brief synopsis of the athletic transfer policy as she along with administration just experienced it first hand. She explained that this policy and process is governed by Section-VI and a student that has transferred into a district has to be approved to play sports in that district through Section VI. A district must prove that a student did not transfer into a district just to play a particular sport. Bridgehampton’s most recent case was taken to the last stage of that process, but due to Ms. Jules’ experience and professionalism as per Mr. Tumminello, our case resulted in success. Special thanks to Ms. Jules.

VI. INVITATION TO VISITORS TO ADDRESS THE BOARD OF EDUCATION ON TOPICS DISCUSSED ABOVE. – Thelma Harris wanted to know about the PE curriculum. She asked, “if gym uniforms are required for the class and it is a requirement for the curriculum, then why does the students have to pay for their gym uniforms. In other classes books and supplies are free except uniforms for gym” Dr. Youngblood explained, “yes the uniforms are required and the cost of them has been reduced for the students, since it is part of the curriculum.” The money the students give toward their uniform is more a responsibility factor on the part of the students than a burden. She says she hopes that any student that has a financial concern will speak to the athletic director and it will be handled on an individual basis.

Mr. Hochstedler interjected that he did not want to beat a dead horse over the head, but wanted to suggest that if the sale of the baseball property passes, that the Board considers using the money toward athletic activities for the students, such as re-leveling the soccer field or on a bigger scale, constructing or purchasing a gymnasium. He shared that as a taxpayer of the district that it is long over due for Bridgehampton School to have a proper size gym, especially since basketball is one of our main sports.
