FUTURE PROGRAM PLANNING

1) Springs School District – Mr. Walker explained the realization of the Springs discussion and some of the history behind the collaboration. Mr. Walker said that at this point Springs School District still does not know where they are going and have not shared their plans. At this time Bridgehampton has discontinued research and feasibility studies.

2) Future Tuition Options – Board member Joe Berhalter presented to the Board his concept of phasing out the high school by tuitioning our students to districts of their choice. Prepared with a written summary and selections from a survey, Mr. Berhalter made his presentation and explained that he believed that this could all happen over a period of three years by phasing out one grade per year beginning with the ninth graders. He stated that his intent for bringing up the discussion was in the best interest of the students of Bridgehampton. Mr. Berhalter felt that the smallness of Bridgehampton High School did not prepare the students emotionally or socially for college. Extracurricular activities were limited due to the small size and there were not enough AP classes offered. The community members present at the meeting response to Mr. Berhalter’s suggestion was completely opposite. The parents of several 8th graders said that they did not agree and they felt that their children were getting a great education at Bridgehampton School. They liked the fact that their children were in a small school setting. They had many opportunities to participate in extracurricular activities. Some at Bridgehampton and other sports shared with Sag Harbor or East Hampton Schools. Mrs. Kotz, the Vice Board President shared that there were a lot of opportunities for the students at Bridgehampton and the Board was working very hard at being creative at implementing even more. She added that the Dowling College Collaboration was a big step that the District had taken to enhance such things like the curriculum that is being offered in the district. She added that she felt that Bridgehampton had a great future. Mrs. Hochstedler and other parents shared that they did not want to worry about having to think about sending their children to another district and they wanted their children to remain at Bridgehampton to graduate. Mrs. DeGroot, a parent of four children shared her experience of her concerns when she first came to Bridgehampton School and because of all the negative talk in the community about the school, she thought she was doing the wrong thing by bringing her children to Bridgehampton School.
Now that they are here she feels good about her decision. She powerfully reiterated that Bridgehampton was a great school and she now knows she wants her children to attend the high school at Bridgehampton. Mr. Delano spoke a little about maybe looking into the district becoming a choice school. Mrs. Fayyaz, Landscape and Design teacher, shared her opinion of the district being considered a magnet school.
