II. TOPICS FOR DISCUSSION:  
1) Student Academic Opportunity – Mr. Walker began the meeting by informing the Board that a copy of an approved resolution that supports the Student Academic Opportunities was enclosed in their packets for review. He stated that in the past the Board has requested that the students participating in such programs report back to the Board about their trip. Mr. Berhalter suggested that the Board should consider putting some definition to the policy such as the amount of money that should be given to these opportunities. Mr. Conti shared that found through research that other districts do not pay for students’ trips, but since we have set a precedent and we do, he asked how will the Board control who goes on the trip, how many students will go per year and how much money will be spent? He suggested that the Board should develop a policy so that it is not discriminatory in any way. Mrs. Kotz shared that most the students that go on these trips are recommended by a teacher and are deserving students. Mr. Walker said at the next policy committee meeting, this subject will be discussed. Mr. Conti also expressed his concern about students traveling abroad. Dr. Youngblood interjected for informational purposes that from the auditors and business aspect that if the district has a policy and is following that policy then we are in better stead than if we did not have policy. Mr. Giosi requested that when the Policy Committee convened to discuss the concern, an idea to consider for selecting students could be similar to the process used for nominating students for the National Honor Society. Secondary teachers are given a criterion to look at leadership, citizenship and academics, and then they are able to nominate a person to the committee to assist with choosing that student. Mrs. Kotz suggested that when the policy committee finalizes a policy for this concern, her daughter will apply under that provisions established by the district’s policy. Therefore, the Board then made a motion to establish a resolution that the application may apply in accordance with the new policy retroactively.
Resolved that the Board of Education of the Bridgehampton UFSD agrees to establish a policy for Student Academic Opportunities and to make it retro-active for all students in the 2007-08 school year.

Motion: Conti  Seconded: Kalish  Vote: 7-0

2) Strategic Planning Council – Mr. Pryor announced that last week the Strategic Planning Council reconvened and the first thing they did was to look at last year’s goals. There were 9 goals established during the 2006-07 school year and the Committee thought they should narrow those goals down. Mr. Pryor distributed a draft copy of the suggested consolidated goals and recommended participants for the 2007-08 Strategic Planning Council. A copy of this draft plan can be found in the district office for review.
