Minutes: Brief summary of meeting

Summary We discussed a number of topics at this meeting. We talked about the parent portal for elementary which for now will be a narrative, for comments and updates. A letter will be going home for both primary and secondary to remind parents to log on to the parent portal.

I brought up the VAP program and talked about how it is not working for Bridgehampton students. Students need contact with a teacher and need teacher direction. The VAP program is fine for self-directed students, however it seems to be too much to do if the student is not given time within the school day to work on the subject, something that needs to be considered for students who want to do it next year. We also discussed distance learning for AP courses and Sean said that you just need a web cam. Elizabeth mentioned the Stony Brook Scholarship program for college credit for advanced students and said she felt it was a better option than AP courses as it gave the students college credit. She also mentioned SARAS, and sent me two links for the two programs.

We discussed the usage of the ipads for the middle school and feel there is a need for more training for the teachers and the students. I have not used them and I see students playing games on them during AIS. Dave said that he could use them in his music program if he could get the ap smart music. Sean said he would get Dave an ipad and set it up for him. Elizabeth suggested using ipads as a reward and to have them do Lexia, which encourages reading.

We said that at the next meeting we want to look at the goals and decide what goals to work on for next year. Sean said he checked and the field trip packet is not a policy but a procedure. Tammy is working on a checklist for it.
