Minutes: Brief summary of meeting

Summary: We looked over the list of goals, which are a result of the survey conducted for Middle States. We have accomplished most of the goals, and many of them are still ongoing. Sean told us about the new phone system by Light path which is a corporate arm of cablevision. The new system will allow for the integration of voicemail and email. He said it is a much more capable system.

We discussed the upcoming budget vote and decided that Dr. Favre should use the rapid notify to encourage people who are not registered to vote, to get registered, and also to encourage people to come out and vote on May 20th. Dave said that an announcement about the vote will be done at the two concerts that were coming up. A suggestion was made to have PTO members make phone calls to parents to get people to come out and vote. Kelly and Elizabeth went through the voter registration lists and listed people they thought would vote for the budget, to help me put together a list of people to call the night before the budget. The BTA will call people to come out and vote on May 19th.

We looked at an email that Dr. Favre sent to us regarding advertising in a School District Directory on K12 Academics. Elizabeth felt that legally there are plusses and minuses to doing that in in gives the public information. We decided to look at it in the fall when we met again for next year's school year.
